| github.com/pandey23khushi

## PROFILE SUMMARY

Motivated BCA student with hands-on experience in Python, web development, AI automation, and workflow automation. Skilled in API integration, database management, and cloud fundamentals (AWS). Seeking an entry-level opportunity to apply technical and problem-solving skills, contribute to organizational growth, and continuously learn new technologies in a dynamic work environment.

## EDUCATION AND CERTIFICATION

|                                                                                     |                     |
|-------------------------------------------------------------------------------------|---------------------|
| Bachelor of computer Applications (BCA) - CIMAGE Professional College, Patna        | 2023-2026(Pursuing) |
| Intermediate (12 <sup>th</sup> ) - Jyoti Kunwar Balika Inter college (BSEB), Patna  | 2020-2022           |
| Matriculation(10 <sup>th</sup> ) – D K Carmel Residential High School, Ara, Bhojpur | 2020                |

## TECHNICAL SKILLS

**Programming Languages:-** Python  
**Web Technologies:-** HTML, CSS, JavaScript(Basic),PHP & MySQL  
**Frameworks & Tools:-** Django (Basic), Git & GitHub, Postman, Git Bash  
**DevOps & Cloud (Basic):-** AWS (EC2, S3), DevOps Fundamentals, CI/CD Concepts  
**AI & Automation:-** GPT-based AI Chatbots, Workflow Automation using n8n, AI Calling Agent Development

## PROJECTS

### AI Calling Agent (CIMI)

- Built an AI-powered voice calling agent using GPT, Twilio, n8n, and VAPI
- Automated inbound and outbound voice interactions using AI-based conversation handling
- Designed automation pipelines to improve communication efficiency
- Integrated APIs and workflow automation to manage call operations

### Airline Management System

- Developed a web-based airline management system for flight scheduling and ticket booking.
- Implemented CRUD operations for efficient flight and passenger data management.
- Built MySQL database and Python backend with a frontend using HTML, CSS, and JavaScript.

### Automation Workflows(n8n):

- Created multiple API-based automated workflows using n8n
- Optimized data transfer between applications through API integration
- Reduced manual operations by automating repetitive processes

### Online Voting System:

- Developed a secure web-based voting system using PHP, MySQL, HTML, and JavaScript
- Implemented user authentication and vote validation mechanisms
- Designed database for vote storage and result calculation
- Ensured system transparency and data integrity

## CERTIFICATIONS & ACHIEVEMENTS

- Cybersecurity Fundamentals** – IBM SkillsBuild
- Agentic AI Workshop** – CIMAGE Group of Institutions
- PYTHON Certification(Grade A)** – CIMAGE Group of Institutions
- DevOps Workshop** - CIMAGE Group of Institutions
- PHP& MySQL** – Spoken Tutorial developed at IIT Bombay
- JavaScript** - Spoken Tutorial developed at IIT Bombay

## CORE COMPETENCIES

- Problem-solving mindset with quick learning ability and adaptability
- Strong interest in AI & automation with effective team collaboration and communication skills
